

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

P R E F A C E.

THE MONTHLY REVIEW hath been carried on for so extended a period, and continued through so many Volumes, that the generality of its readers have repeatedly expressed a wish for a GENERAL INDEX to the whole. So miscellaneous, indeed, are the Contents of the work, and so various are the topics which are treated in it, that an easy or expeditious reference to particular articles, or subjects, hath long been deemed almost impracticable.

The Plan which was adopted in the Catalogue of undescribed Manuscripts in the BRITISH MUSEUM *, hath been followed, on the present occasion. The reader may, therefore, consider the Two Volumes, now laid before him, as calculated to exhibit and display the state of English Literature during a period of THIRTY-FIVE YEARS.

The FIRST Volume contains an Index to the *Titles*, *AUTHORS' NAMES*, *Sizes*, and *Prices* of all the Books and Pamphlets (digested under their respective classes) which are characterized in the Reviews, from the beginning of the Work, in 1749, to the end of the SEVENTIETH Volume, which was finished in the year 1784. This comprehensive *Catalogue* contains, nearly, (indeed with scarce *any* omissions) all the Publications in *Great Britain* and *Ireland*, during that period; together with the most considerable productions of the *Foreign Presses*.

* A Catalogue of the MSS. in the British Museum hitherto undescribed, 2 vols 4^{to}, 1782. *Vide* Monthly Review, vol. lxviii. p. 389.

As so great a number of articles, in one *General Alphabet*, would have rendered it very difficult to consult, occasionally, the Books on any particular subject, especially *anonymous* publications, the expediency of an arrangement under the proper classes, or general divisions of literary studies, is sufficiently obvious.

Anonymous Tracts are, therefore, classed under the subjects on which they were respectively written, and not, after the usual manner of Indexes, under the first, or leading word of the title: a vague and desultory method, by which the object of the searcher is too often eluded, and his wish, perhaps, disappointed at last.

On some very important subjects, all the publications, as well those which are printed with the Author's name, as those which are anonymous, are entered under the head to which they *chiefly*, if not *immediately* belong; for instance, the articles of *Bible*, *Jews*, *Subscription*, &c. in THEOLOGY; and *America*, *East Indies*, *Ireland*, &c. in POLITICAL: but this arrangement has not been invariably observed,—as, in the smaller classes, it was unnecessary.

In regard to the original Controversies, all the *Answers*, *Replies*, *Rejoinders*, &c. will be found under the name of the AUTHOR, or TITLE of the leading book. The work of the Writer under whose name it stands, is distinguished by the Roman character; the titles of the Answers, &c. are printed in *Italics*; and under the Answerer's name, his publication will also be found. The *anonymous* productions of this nature, are, in general, placed under the name of the *original Author*; or, if it may be so termed, in the *Controversy*: for example, *Lowth*, *Kennicott*, *Middleton*, &c. in the Class of THEOLOGY; *Gibbon*, &c. in HISTORY; and *Garrick*, *Chatterton*, &c. in POETRY.

Tracts relating to particular or popular characters, are collected under the name of the Person concerning whom they

they were written: as in the articles relative to *Keppel*, *Pitt*, *Wilkes*, &c. in the Class of POLITICAL publications.

In respect to the Prices of Books and Pamphlets, they are given as they stand in the Reviews; and it must be observed, that they are sometimes the prices *bound*, or in *boards*, or *sewed*; which it was not possible to distinguish, in every instance, with perfect accuracy. The names of the Bookseller and Publishers will be found in the Reviews; to which the reader is constantly directed, by the First Volume, or *Catalogue part*, as we may term it, of this Work.

For the accommodation of those who may wish to know what hath been *written by or concerning* any particular Author, during the period of the Reviews, an INDEX to ALL the *Names* is added to the TABLE of CONTENTS, of which the First Volume consists.

The PREFACE is followed by a List of the various Classes into which the First Volume is divided; and likewise, a Table of the Volumes of the Reviews, with their Dates.

In the SECOND VOLUME is given an INDEX to the principal Extracts, Observations, and remarkable Passages. As these materials could not be so properly arranged in Classes as those of the First Volume, they are wholly comprehended under one General Alphabet; and the particulars are literally copied from the original Indexes, subjoined to the different Volumes of the Review.
